Color themes to fit your environment

Each architectural style has its own palette of colors. Finding the right combination for your home's exterior will bring out its full charm and personality.

Our **maibec** inspirations make it easy. Four professionally-created palettes inspired by nature in traditional and contemporary colors in line with the latest trends:

Our **Nautilia** inspirations bring together soft blues, whites and grays that are reminiscent of ocean breezes and sun-kissed beach homes.

Our **Balsamia** inspirations feature deep blues and greens that are evocative of the peaceful tranquility found in the forest.

Our **Provincia** inspirations use pale whites, yellows and creams to reflect light and emphasize a home's luster, while bringing to mind rolling hills and the lush countryside.

Our **Terra** inspirations feature rich earth shades of brown, ochre and red that blend seamlessly with the ever-changing beauty of the surrounding woodlands.

Expert tips for choosing colors

- Respect your preferences. Colors should reflect more than your home's architectural style – they should also reflect your tastes and personality. Exterior color is a long-term decision you should feel good about.
- Consider your neighborhood. Even a unique home should complement nearby neighbors and landscapes.
- Make the most of your surroundings. Homes in wooded areas that don't receive lots of direct sunlight should favor darker shades of brown or green, which will retain their color much longer. If your home receives lots of sunlight, opt for pale shades of white or yellow. The sun will enhance their inherent radiance.

Looking for something different? Give us any color and we will match it – exactly!

Our **TrueMatch**® system offers an endless choice of solid colors guaranteed to match any color exactly. It's quick, easy and guaranteed to match! Our cutting-edge equipment offers color accuracy well beyond what the human eye can perceive. As always, you can count on premium-quality stains factory-coated on all sides. Ask your **maibec** retailer or representative about our TrueMatch® system.

Eastern White Cedar Shingles

Now backed by a solid warranty that's **even better!**

In addition to our original 50-year* warranty against wood decay, we now offer even longer warranties on our stains:

- **7-year* warranty on LABOR on two coats of solid stain**
- 10-year* warranty on one coat of solid stain
- 20-year* warranty on two coats of solid stain (extendable up to 35 years!)

* Some restrictions apply.

Only maibec stains perform like this!

maibec stained shingles are better than ever, thanks to Innoplex™, a next-generation industrial grade stain developed exclusively for maibec to meet the unique qualities of white cedar shingles.

- Performs like no other stain in extreme conditions
- Is more resistant to fading and more durable than current stains
- Is available only on maibec shingles
