Explore everything United has to offer:

- > A Reliable Lifetime Warranty
- > Award-Winning Company
- > Unique and Exclusive Options
- > Endless Design Possibilities
- > Superior, Advanced Technology

Beauty & Strength

Styles

Windows

SINGLE HUNG

Single-hung windows are raised vertically from the bottom only. The upper sash remains stationary.

A well-balanced, affordable option that's solid, reliable and attractive.

DOUBLE HUNG

Both the upper and lower sashes slide open vertically. The sashes also tilt inward for easy cleaning.

Architecturally sound and aesthetically pleasing. Impact window available; commercially rated to 20 stories.

CASEMENT

Opens to a full 90 degrees allowing a full and open viewing area, also having an easy-to-clean interior.

Made easier to operate with a smooth, simple-to-use, modern hardware and single operating lock.

Modern...

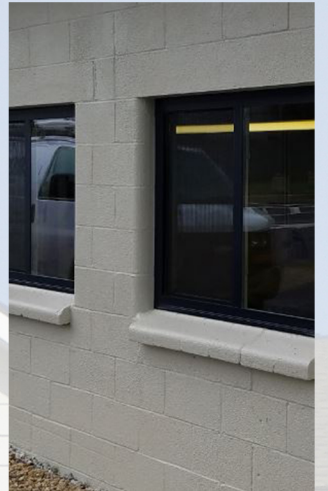

Styles

SLIDER

Open a sliding window horizontally from one side, with one or both sashes being operable, depending on the product. Lets fresh air filter in nicely with easy operation.

Smooth and strong; an elegant solution and sturdy build.

PICTURE

Picture windows are stationary and do not open, making them energy efficient and allowing for large sizes.

A window to perfectly frame the outside world; strongly built and skillfully crafted.

HOPPER

Typically found in basements, the hopper window takes little vertical space and tilts inward for fresh air.

Whether for a basement or otherwise, a window that's reliable and simple to use.

Bold...

Styles

AWNING

Opens from the bottom to allow fresh air to filter in.

A modern choice that nicely accents architectural features. Smooth operation.

SHAPES

Shape windows are bent to form any number of geometric patterns to create a unique architectural look.

A creative choice that makes a bold statement on any project.

Exquisite...

Styles

GARDEN

Perfect for sunny spots, the garden window has 2 side operating windows that allow for fresh air.

Wonderfully elegant choice which adds timeless beauty. Maximum light exposure and simple operation.

BAY & BOW

A combination of windows, typically four or more, to give the illusion of a curved wall.

Helps add dimension and upscale aesthetics to any project; reliably strong with a touch of class.

Superior...

4500 SERIES HEAVY DUTY SLIDING DOOR

The 4500 heavy duty slider is an unmatched, top-of-the-line door. It was meticulously designed to withstand harsh weather conditions and add a distinguished look to any room.

With a multitude of options for color, hardware, blinds, and more, the 4500 is a modern masterpiece.

Enduring Charm

1600 SERIES HINGED FRENCH DOOR

With both Inswing and Outswing configuration options to choose from, the 1600 hinged French door has a versatility that is unrivaled.

Design to perfection with options for hardware, colors, blinds, grills and more to create a truly unique French door.

1200 SERIES SLIDING FRENCH DOOR

The 1200 sliding French door features a welded sash & frame, wider stiles & rails and many other aspects that make it the perfect door for aesthetics and security.

Adding blinds between-the-glass is a modern and safe way to make the 1200 an even greater addition to any home.

A Touch of Class....

Dependability

Peace of Mind...

Window Selection

Replacement Windows

4800 SERIES

Slim design lines, stupendous weatherability and a beautifully beveled exterior are just a few things that make the 4800 a wise choice as a replacement window. It's a modern style that provides strength, security, and energy efficiency all in one window.

AVAILABLE AS: Double Hung, 2 or 3 Lite Slider, Picture, Combination, & Shapes

6000 SERIES

Easy to operate hardware, an exceptional DP-50 structural rating and a spring-loaded screen set our 6000 apart. This series is guaranteed to add a tasteful elegance to any room or project; especially with the option for blinds between-the-glass available.

AVAILABLE AS: Casement, Awning, & Picture

8000 SERIES

Unrivalled performance sets the 8000 series above the rest. Meticulously designed for extreme durability, strength, and efficiency, the 8000 is a supreme choice for anyone who requires nothing short of technologically advanced excellence. On top of a design that's beyond compare, the 8000 also offers blinds between-the-glass and a plethora of color and design options that set it apart from any other in its class.

AVAILABLE AS: Double Hung, 2 or 3 Lite Slider, Picture, & Shapes

New Construction Windows

3800/3900 SERIES

The 3800 Flat Frame and 3900 Brickmould are single hung windows that combine modern, timeless sightlines with strength and reliability. Available with customizable options, each of them is also available as a drywall/passthru window.

AVAILABLE AS: Single Hung, Slider, Picture, & Shapes

5500 SERIES

The 5500 offers excellent strength, durability and a host of options which make it an exceptional choice for a new construction project. It pairs unparalleled energy efficiency with aesthetic appeal and comes with many customizable features.

AVAILABLE AS: Double Hung, 2 or 3 Lite Slider, Picture, & Shapes

6000 SERIES

Whether it's a breathtakingly beautiful casement window or otherwise, the 6000 is ideal for a project that needs just the right form, function, and style. Simple hardware, optional blinds between-the-glass and a sleek frame add immeasurable value along with a strikingly modern appearance.

AVAILABLE AS: Casement, Awning, & Picture

8000 SERIES

Nothing matches the excitement and endless possibility of a new construction project quite like the 8000 Series. Contemporary, superior, versatile...the 8000 provides advanced window technology blinds between-the-glass, and endless design options. Simply put, the 8000 is king of modern window design.

AVAILABLE AS: Double Hung, 2 or 3 Lite Slider, Picture, & Shapes
