The preferred choice by Architects, Builders, and Homeowners everywhere, Wizard Screen Solutions is proud to be today's leader in retractable screens. We are continually expanding our product offerings and matching the product designs to meet the needs of today's construction trends and homeowner expectations. We welcome you to connect with us and learn more about the benefits of Wizard Screen Solutions.

# LARGE OPENING RETRACTABLE SCREEN

The Horizon screen sets the new standard in retractable screens. Featuring a flush handle that effortlessly pulls to the desired width and can be quickly and easily closed is unique to the Horizon.

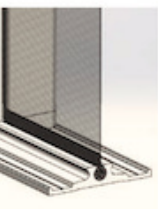

## Auto-Stop

Homeowners gain full control with the convenience of unlimited stopping points. Automatically stops when the handle is released.

## Low Profile Track

At only 1/2" tall, the lower track blends seamlessly into every application, it's designed for simple installation, providing a smooth transition.

## Captured Mesh

No more blowouts or frayed mesh! Utilizing specialized equipment the screen mesh is captured in the tracks which keeps the mesh retained and tight at all times.

	Width	Height
<b>Singles Up To</b>	21'	11'
<b>Doubles Up To</b>	42'	11'

## Benefits:

Wheelchair  
Friendly

## Versatile

RetractaView is a great screen solution for single doors, french doors, patio sliders, and windows.

## CASE STUDY THE IDEAL LARGE DOOR SCREEN SOLUTION

Move freely between large exterior openings while keeping pests and insects out.

**Product:** Horizon

**Sizes:** Up to 21 feet (single screen)

Up to 42 feet (double screen)

**Ideal Use:** Large exterior doors and openings

Large folding exterior doors present a unique challenge – how to enjoy the unobstructed view when the door is completely open and also be able to move in and out without letting pests and insects into your home. Large motorized screens will give you the view, but need to be fully retracted every time someone enters or exits, opening the large space to pests or insects.

This was the exact problem that a Vancouver Lower Mainland homeowner faced when he came to us for a screen solution for his 21-foot folding door. He loved being able to open the large folding door to access the deck, but being in horse country meant that doing so would allow large amounts of the flies and insects that are common to the area to enter the home.

Ruling motorized screens out, the homeowner found the perfect solution in the Horizon manual screen. With the ability to screen his full 21-foot-wide door while being able to open less than the width of a common entry door, the homeowner got the openness, access to the outdoors, and insect barrier he desired.

## SOME OF OUR BUZZ!

“The VistaView screens have changed how we use our home. For the ideal solution for large door openings, Wizard is the leader in providing high design, durable and functional screens.”

Tracy Yates, Boost Marketing

“Carrying Wizard products puts us at the top end of being the screen expert in our market. When it comes to Wizard screen doors they’re all the best products in the market.”

Ty Kraft, Kraft Screen & Door

“What we value most about working with Wizard is that they have the best Service, Experience, and Product. I would certainly recommend Wizard to any builder or any home owner.”

Josef Geluch, Naikoon Contracting

“I am proud to partner with Wizard because they produce top-quality screen products and demonstrate professionalism in every aspect of their business — from manufacturing to customer service.”

Danny Lipford, Today's Homeowner Host
