2022 welcomes a new chapter. A collective wish for new beginnings leads us to
**Thoughtful hues that support healing,

Our color of the year, the softly shaded lavender, **Desir   1219** is designed to express these hopes, and bring dreams of renewal to life.

To inspire you, we've designed four beautiful palettes featuring our 2022 trend colors, with **Desir   1219** at the heart of each. Within these, we hope you'll discover your own vision for 2022.

Use these balancing hues to blend with natural materials and lush vegetation for a picture perfect home.

The ethereal quality of **Desireé** makes it an ideal choice if you prefer clean and classic styling.
